

# WASTE-TO-ENERGY - GIS Tool

Steven Pratt, P.E.  
U.S.EPA - Region 6

## Johnson County Animal Waste Study: Potential Location for Energy Recovery Facility

Provides visual and data outputs on waste facilities and prospective "hot" locations for WTE facilities

## A GIS Web-based Tool To:

- Explore WTE Possibilities
  - Show "hot" potential locations
- Coordinate & bring together Generators, WTE Builders, Public & Private Sectors
- Transferable Pilot Project
  - To work in any location
- Build a business case for WTE operations
- Generators can develop profitable methods to reduce environmental impacts
- Increase U.S. Energy Security

*"Your Tool will be a tremendous asset to the WTE Industry ... I am very excited"*  
- Doyle Kelle, K2 Innovations
